

# WeeklyReport\_2018-07-23\_07-29\_E

---

I test the DimensionReduction code this week and study tableau for the teaching asistant

## Progress

### 1 Regular

- write 5 ACM problems
- learn a bit js in mdn(1 class)
- compelte the kaggle titanic in [one blog](#)
- listen one class in Machine Learning and having it Deep and Structured(2017)

### 2 Project: DimensionReduction

- We find some new data set and test the parameter on new data this week
- we hope we could complete the test next week

### 3 VIS teaching asistant

- listening to Wei Chen .etl lessons in VIS school
- learn how to use tableau
- complete three homework on my own
- Contact my three students and give my advice

---

## Recent perspective

Work	deadline	Tip
compelete DimensionReduction Paper	maybe this week	
do Home Credit Default Risk in kaggle	Sonday	commit first try
5 probelms on ACM	Friday	
Machine Learning and having it Deep and Structured(2017)	Wendesday	one class
write the d3.js code for our VIS homework	Tuesday	

## Long-term perspective

Work	deadline	now
RSATree Project	9.01	delay
learn pytorch	9.01	a new plan and has no decision yet
